

NOTICE OF SPECIAL STOCK-HOLDERS' MEETING

A special meeting of the stockholders of the Belmont Extension Mining company, a South Dakota corporation, will be held at the office of the company at Tonopah, Nevada, at 3 o'clock p. m., on the 18th day of July, 1911. The purpose of the meeting is to consider ways and means for the development of the property, the advisability of amending the articles of incorporation to make the corporation assessable, or the re-incorporation into an assessable company, or otherwise raising funds for development and expenses of operating, and for the purpose of considering offers that have been, or may be, made for the property, or portions of its stock. Also to decide upon the extent of the operation, rapidity of the work and method of future development.

BELMONT EXTENSION MINING COMPANY,

By J. R. BALLIET,
As Its Vice President.
7-18-11

NOTICE OF FORFEITURE.

To J. J. Owens, your heirs and assigns, you, J. J. Owens, are hereby notified that the undersigned has expended in labor and improvements on the Dick No. 1, 2, 3, 4, 5, 6, 7, 8 and 9 lode mining claims, situated in the Tonopah mining district, Nye county, Nevada, the sum of \$900, the sum for the year 1910, of which you are a one-third owner, under the provisions of section 2324 of the revised statutes of the United States of America, covering location, labor on mining claims, the locations, certificates of the above claims are duly recorded in the county recorder's office of Nye county, state of Nevada; said expenditure was the amount necessary to hold said mining claims during the aforesaid year, and if within 90 days from the date of the first publication of this notice you fail or refuse to contribute your portion of such expenditure as co-owner, which amounts to \$300 to you, together with the cost of this advertisement, your interest in said claims will become the property of the subscriber, your co-owner, who has made the expenditure and improvements above mentioned.

Dated at Tonopah, Nevada, this 17th day of June, 1911.
HUGH SUTHERLAND.

Columns of Our Exchanges.

President Joseph E. Stubbs, of the University of Nevada, who returned from a several weeks' visit to New York, announced that he had received a donation of a quarter of a million dollars from Clarence Mackay and friends of the latter with which to build a new administration and library building at the university. The building will occupy the site on which Morrill hall now stands.

Morrill hall, the oldest building on the university campus, will be torn down. For many years Morrill hall was practically the entire university, but as time rolled on other structures were erected, and today the college institutions boasts of about a dozen different erections that grace the quadrangle.

Mackay has already donated large sums to the University of Nevada, and endowed the Mackay School of Mines. The statue of his father now decorates the north end of the quadrangle and faces the Mackay building. It is also due to the donations of Mackay that the athletic field, the gymnasium and the handsome quadrangle were constructed. —Journal.

Bees Take Absolute Charge
of County Court House

The bees are becoming quite civilized in this go-ahead town. They have persisted in taking charge of the court house, have invaded the Williams store, and finally reached the point where they were driving Peter Cook and family from their home on Williams avenue. Mr. Cook had the weather-boarding torn off and found that the bees had filled the space between two studgings near the front door from the ground to a height of about six feet. When this honey was removed it was discovered that another swarm had taken possession of another corner of the building. A large supply of honey was secured.

Work Is to Begin at Once
at the Pittsburg-Liberty Mine

P. J. Conway stated last evening that work would be resumed on the Pittsburg-Liberty mine at Masonic within the next few days. A mining engineer by the name of McGill has been employed to manage the property and will go to Masonic this morning. A bond will be filed with the Mono county court to cover the amount of the Brady

attachment on the property and work commenced.

It is stated that the mine has been badly gutted and that a large amount of ore was put through the mill by the old management that did not pay the expense of milling. Under the old management ore would have to be worth at least twenty dollars to pay the cost of extraction and milling. An attempt will be made to cut down this cost, and it is thought, that twenty-dollar ore will be made to pay a neat return. The mill will not be started for some time as the ore chutes in the mine and at the mill will all be filled before reduction starts.

Lovelock Is Very Short
of Men for Haying

There is a shortage of men for haying in Lovelock and many of the ranchers are now hard put to secure a full crew. Good wages are paid, the average being \$2. This shortage exists not only at Lovelock, but at Reno and points in the eastern part of the state, according to the reports from the various sections. In the northwest, in Oregon and Washington, however, there is an opposite situation. Labor there is plentiful while wages are low.

Lovelock always has paid the best wages in the state for farm hands, and that practically means the entire United States. According to the last census reports, Nevada paid the highest average wages in this country for farm hands.

Pioneer of Churchill County
Joins the Silent Majority

Fred Walmschoff, a well known character and pioneer of Churchill county, died at the county hospital early Thursday morning of last week, having been taken to that institution on Sunday last. The deceased was born in Saxony, Germany, and was 75 years of age. He came to Churchill county prior to 1876 and had since made this section his home. He was quite eccentric in his disposition and seemed to get ahead in the world.

Nevada Has a River
One Thousand Miles Long

A bulletin issued by the United States weather bureau describing the rivers of Nevada gives the fol-

lowing information in regard to the Humboldt:

The Humboldt river rises in the Ruby and Independent mountains, in the eastern part of Elko county and flows in a southwesterly direction to the Humboldt Sink, near Lovelock. It is nearly 1000 miles from the source of its longest tributary to the sink where its waters are lost by evaporation. The river with its tributaries drains about 15,000 square miles and irrigates about 300,000 acres of land.

Will Construct New Mill
for Mexican Mining Company

It is stated that the construction of the new mill for the Mexican Mining company will probably begin within two or three weeks, but as yet no definite plans have been made for the exact nature of the plant and the complete process to be used. Further tests of the ore are being made in San Francisco, which will delay for a short time the final determination of the kind of mill to be erected. —Virginia Chronicle.

Shepherd Found Dead
Last Wednesday Morning

Victor Arisobell, a shepherd employed by Martin Sorrensen, was found dead Wednesday morning on the Sorrensen range in Alpine county. By the man's side lay his shotgun and a gaping wound in his face told the story of his death. As near as could be told the man had been dead about four days before his body was found.

Movement of Men Without
Employment from the East

Tramner complain that they are experiencing difficulty in keeping unemployed men from westbound trains and say that not for many years have they noticed so many loiterers in the vicinity of railroad yards, stations and along the right-of-way. Upon one or two occasions bands of these men have taken possession of an entire freight train.

TRAMNER CASE LOOKS
EXCEEDINGLY STRANGE

The verdict of the jury in the Tramner case looks very much like a miscarriage of justice. Tramner and Earle murdered Mr. and Mrs. Quillel at Inlay. They went to the saloon kept by the Quillels with the intention of robbing it. In the commission of the robbery, they brutally murdered Quillel and his wife. Earle confessed to the murder and claimed that Tramner forced him to take part in the robbery. Earle was tried in Humboldt county and convicted of murder in the first degree with death as the penalty. He is now in the penitentiary waiting the decision of the supreme court on his last appeal.

If Earle's confession is true, Tramner planned the crime and forced him to assist in its commission. Earle, the tool, goes to the gallows, while Tramner, the principal, goes to the penitentiary for life. Neither of these men deserve any mercy, but if mercy is to be extended to either it should be to Earle and not to Tramner. The fact is that both of them should be put under the ground, and that speedily. —Elko Independent.

TRAMNER BEGINS HIS
LONG PRISON TERM

At Reno, Friday morning, Judge Ducker sentenced J. Frank Tramner to the penitentiary for life, and the prisoner was taken to Carson City on the motor in the afternoon by Sheriff Ferrel.

When asked if he had any legal reason to offer why sentence should not be pronounced, both Tramner and his counsel replied in the negative. Attorney Frame also stated that there would be no motion made for a new trial.

BODIES RECOVERED.

COBALT, Ont., July 17.—The bodies of several of the dead from Porcupine have reached here. More than a hundred refugees are in Cobalt. Various estimates are made as to the total number of dead, many as high as 500. The fire covers an area of 10,000 miles square.
